

# REACH Compliance Policy

Had Fab Ltd is committed to complying with the requirements of UK REACH Regulation (Regulation (EC) No. 1907/2006 as retained in UK law under the European Union (Withdrawal) Act 2018). This policy sets out our approach to managing chemical compliance to protect human health, the environment and to meet our legal and customer obligations.

## Legal Framework

UK REACH governs the Registration, Evaluation, Authorisation and Restriction of Chemicals. Had Fab Ltd recognises its duties under this regulation and associated health, safety and environmental legislation.

## Organisational Status

Under UK REACH definitions, Had Fab Ltd operations as a Downstream User of substances and articles. As such, we are not required to register substances but are required to ensure safe use, risk control and appropriate communication through the supply chain.

## Our Commitments

Had Fab Ltd will:

- Work with approved suppliers to identify, assess, and manage any Substances of Very High Concern (SVHC) present within articles supplied.
- Ensure information provided within Safety Data Sheets (SDS) and exposure scenarios is followed and imported into COSHH assessments.
- Inform customers where articles supplied contain SVHCs above 0.1% weight by weight, in line with UK REACH requirements.
- Communicate relevant information concerning hazards, risk management measures and safe conditions of use to customers and stakeholders, where applicable.
- Monitor changes to UK REACH legislation and ensure timely communication and compliance where impacts are identified.
